Unless there is a special reason, female clients are attended by female staff, and male clients by male staff.

In principle, the same staff member will support you from the initial consultation through to the completion of your treatment, ensuring a comfortable and consistent communication experience.

**Men's Hair Removal
Beard Hair Removal**

May Limited Offer – First-Time Clients Only (First 5 Customers)

- ① Beard Hair Removal – ¥3,000 per session
- ② VIO Hair Removal – ¥4,000 per session
- ③ Full Body Hair Removal (excluding beard & VIO) – ¥9,800 per session

★ You can mix and match any of the above treatments!

All consultations and treatments will be personally handled by Arai, with full responsibility and care.

We offer full-body treatments—from face to toes—including ears, nose, and brows, with adjustable hair removal or reduction. Gentle on the skin, our treatments reduce the need for shaving and minimize irritation. We also support clients with sensitive conditions like atopic skin, keloids, tanned or white hair, and hardening or increased hair growth.

POINT

6 Key Points of Arai's Hair Removal Method

POINT 01

Arai's Hair Removal Method: Over 20,000 Treatments Performed with Medical-Grade Precision

At our salon, licensed nurses ensure smooth results with careful shaving and precise treatment. We apply the right amount of heat for lasting effects and never perform treatments that lead to no change or hair regrowth. With our expertise, we tailor settings to your hair and skin type, maximizing results every time. Pain and effectiveness may vary depending on the technician, but our exclusive Arai Method ensures unique results.

POINT 02

Suitable for sensitive skin, pain concerns, keloid scars, atopic dermatitis, dark skin, and mucous membranes

We use skin-friendly hair removal machines, making treatment safe even for those with sensitive skin, keloid-prone skin, atopic conditions, or darker skin tones. Pain is minimized through expert control of power, cooling, and slow-paced application. For women, VIO treatment can safely include the mucous membrane area.

POINT 03

Effective for thick hair, fine hair, white hair, and cases of increased or hardened hair growth

With expert knowledge and technique, we address all hair and skin types. Each session uses customized settings and overlapping shots for visible results. We carefully target even the finest hairs and focus extra on stubborn areas. Treatments can be done every two weeks, achieving satisfaction in fewer, faster sessions.

POINT 04

Transparent pricing with the lowest price plan offered

We begin with a consultation and test shot before recommending a plan. Your treatment is tailored based on pain level, hair amount, desired results, and budget. No pushy sales, no product upselling, and no hidden fees. Even shaving touch-ups are free of charge.

POINT 05

Welcoming men, women, LGBT individuals, and children

With medical and hair removal expertise as a licensed nurse, we ensure a high standard of hygiene. Safe and comfortable treatment is available for everyone—from children (as young as 3) to seniors.

We serve all ages, all body areas, and all genders with care and without discrimination, including full support for sexual minorities.

POINT 06

Transparent pricing with the lowest price plan offered

Hair removal won't stop all hair forever, but regrowth is minimal and won't return to the original state. A few hairs may appear months or years later. Unexpected interruptions like business trips or pregnancy are covered. Early satisfaction = refund for unused sessions. After 10 sessions, maintenance costs under ¥10,000. We work with medical clinics for any skin issues. Poor results? Extra sessions are free.
